CENSUS TRACT CODE REVIEW MAP - LEGEND

| SYMBOL | DESCRIPTION | SYMBOL | DESCRIPTION | SYMBOL | DESCRIPTION |
|--------|--|--------|-------------------------------------|--------|-------------------------|
| | American Indian Reservation and/or OH-Reservation Trust Land | | Interstate or U.S. Highway | | State Highway/Road |
| | State (or statistically equivalent entity) | | College or University | | Military |
| | County (or statistically equivalent entity) | | Prison or Juvenile Detention Center | | National Park or Forest |
| | Minor Civil Division (MCD) ¹ | | Outside Subject Area | | Inset Area |
| | Consolidated City | | | | |
| | Incorporated Place ² | | | | |
| | Census Designated Place (CDP) | | | | |
| | Census Tract ³ | | | | |

NEW YORK 36

ERIE 029

MILFORD

Davis

Cochiti

33.07

Where state and county, and/or MCD boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

State and county names are followed by their FIPS code.

1 MCDs are symbolized and labeled only in the 12 strong MCD states: Connecticut, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Wisconsin.

2 Incorporated place name color corresponds to the incorporated place fill color.

3 The full census tract code consists of six digits with an implied decimal point between the fourth and fifth digits. For legibility on this map, the leading zeros have been stripped and the decimal point is shown. To translate a census tract number on the map to its full code, add as many zeros as needed to the left side of the number to reach six total digits and remove the decimal point before the last two digits.

Example: Census tract number on the map "33.07" represents census tract code "003307"

Due to space limitations, some road names, along with other feature and geography names on the map, may not be shown.

The plotted map scale is 1:59,760

Projection: Albers Equal Area Conic
Datum: NAD 83
